Please note that there is **no industry exhibition at the symposium and no registration fee.**

The location of the Sanatorium is as follows, in Google Maps Poblado Fontilles, 1

[Poblado Fontilles, 1 - Google Maps](#)

To get there by public transport, both from Valencia and Alicante, you have to get to Ondara, and there are several options:

-You can get there by bus with the company [www.alsa.es](http://www.alsa.es), at certain times there are buses that leave from the airports to Ondara, otherwise you have to get to the bus stations in Valencia or Alicante respectively and then take the bus to Ondara.

-A second option, only from Valencia, is to come by train to Gandia [www.renfe.es](http://www.renfe.es) and then by bus to Ondara with the same company [www.alsa.es](http://www.alsa.es).

From Ondara to Fontilles there are approximately 18 km, which have to be done by taxi, approximately 25 €.

Another option could be to rent a car directly from the airport to Fontilles.

## Preliminary Program

### Thursday 02.10.

14:00 – 18:30	Check-in
19:00 – 21:00	Dinner

### Friday 03.10.

<b>16:30 – 18:30</b>	Interview of Former Leprosy Patients Buruli Ulcer Close remarks
<b>19:00 – 21:00</b>	Dinner

### **Sunday 05.10.**

<b>08:00 – 09:00</b>	Breakfast
<b>09:00 – 13:00</b>	<b>Check out</b>

Since 1909, Fontilles has been home to thousands of people, most of whom were affected by leprosy. All of them were once separated from the rest of the world by a wall that enclosed the health complex, transforming it into a self-sufficient town with its own life. Fontilles holds a rich heritage, not only material, documentary and human, but also landscape and architectural. Today, Fontilles is a non-profit foundation dedicated to fighting leprosy and its consequences worldwide. It is involved in international cooperation projects to combat leprosy in countries such as India, Mozambique, Malawi, Brazil, and Bolivia. These projects focus on early detection and treatment of leprosy patients, disability prevention and strengthening healthcare systems.

**Dr. José Ramón Gómez Echevarría** is the Medical Director for Leprosy at Fontilles. He has been working as a physician at the Fontilles Sanatorio since 1986. He leads the International Leprology Courses organised by Fontilles, training medical professionals in the diagnosis and treatment of leprosy. His leadership extends to collaborations in multiple countries, where he works on initiatives to combat leprosy and other neglected tropical diseases.

This symposium has been organized through educational cooperation on skin-related tropical diseases between the ISDT and Fontilles. Participation in this event will provide a deeper understanding of leprosy and other neglected tropical diseases in a historic complex set in the stunning valley of La Vall de Laguar.
